Graduate students in UMD's Integrated Biosciences Graduate Program are tackling a wide range of subjects in the field and in the lab. This hands-on experience will prepare you for a variety of careers in biological sciences. The Integrated Biosciences Graduate Program is a Ph.D. program is university wide and multidisciplinary.

**Why UMD**

Students can choose advisors from numerous University departments, as well as associated faculty at the Natural Resources Research Institute and U.S. Environmental Protection Agency in Duluth.

**Career Possibilities**

To find out what our recent graduates are doing, see the Career and Internship Services Report: Follow-up of Majors

**Scholarships**

DOVE Fellowship

**Requirements**

In addition to the general application instructions provided by the Graduate School, visit the IBS PhD program page for specific application instructions and deadlines related to the program. Also visit the catalog requirements page linked above for additional information.

- No applications are accepted to start in Spring or Summer Semester.
