Communication Sciences and Disorders
M.A.

Major
Master of Arts
Communication Sciences and Disorders
College of Education and Human Service Professions

The Communication Sciences and Disorders MA program will prepare you to serve individuals with a range of communication impairments. You'll choose from courses in assistive technology, language disorders, and motor-speech disorders. Your courses will reflect the most current needs of the profession. Under the guidance of clinical instructors, you will complete clinical experiences in the Robert F. Pierce Speech-Language-Hearing clinic on the UMD campus and at affiliated internship sites.

Why UMD

Students choose UMD's Communication Sciences and Disorders Program because it offers the courses, the clinical experiences, and the individualized instruction needed to become a skilled speech language pathologist.

Acquired Skills

- Knowledge and Scholarly Formation
- Research and Methodological Skills Relevant to Field
- Communication Skills
- Leadership and Collaborative Skills
- Cultural Competence and Global Context Formation of the Field

Career Possibilities
