As an environmental & outdoor education major at UMD, the outdoors is your classroom. Because we're located on the shores of Lake Superior, you'll have hands-on opportunities to apply outdoor education methods and theory. You'll be able to choose from a variety of careers, including adventure education, sustainability education, and environmental education.

**Why UMD**

- UMD is home to Bagley Nature Center, a 55-acre, on-campus nature center and outdoor classroom
- UMD is a partner in the Boulder Lake Environmental Learning Center an 18,000 acre nature classroom 18 miles north of Duluth
- Job placement is 90% throughout the United States
- Students intern all over the U.S. and at many international sites (Australia, England, Finland, New Zealand)

**Acquired Skills**

- Know how to teach about and in the outdoors
- Learn about the management of grounds and facilities
- Acquire skills in Natural Resource Management for sustainability

**Career Possibilities**

- Camp Director
- Environmental Researcher
- Park Ranger
- Nature Center Director
- Park Development/Management
- Recreation Leader
- Recreation Retailing
- Park Interpreter (Naturalist)

**Graduate School Options**

- Education
- Environmental Education
- Outdoor Education
- Sustainability Education
- Recreation Management

**Scholarships**

Environmental and Outdoor Education students are eligible to apply for multiple scholarships specifically for EOE students. One example is the James M. and M. Martha Ryan Scholarship awarded to students interested in pursuing careers in environmental safety and protection, or who are interested in working in the national or state park systems.

Students in CEHSP are eligible to apply for more than 100 scholarships each academic year typically totaling $120,000 annually. For more information on scholarship opportunities, visit our scholarship webpage (https://z.umn.edu/scholarshipcehsp).
Student Clubs

Many of our students are very involved in UMD's Recreation Sports & Outdoor Program (RSOP) department. RSOP facilities outdoor adventures, skill building, and practical application of many of the concepts in EOE.

Faculty Highlights

- Internationally and Nationally recognized industry leaders
- Experts in Outdoor & Environmental Education teaching methods, outdoor skills, teaching audiences from early childhood to senior citizens.
