The Bachelor of Applied Science (B.A.Sc.) in Psychology focuses on providing students with a firm grounding in the field of psychology. It encourages students to embrace diverse theoretical perspectives and ideas, to develop skill in independent inquiry, and to constructively and ethically apply psychological principles.

The major prepares students for applied careers in human services and graduate education while advancing their personal growth and life-long learning. Students contribute to the advancement of psychology through research and other scholarly activities as well as through fellowship in student psychology organizations.

The Department of Psychology supports the development of reflective and competent research-practitioners versed in using modern technologies. Statistical reasoning and quantitative research methods are part of the major’s core requirements.

Requirements

Any student may be admitted to the department as a Pre-psychology major. Students who have completed General Psychology (Psy 1003), have at least 24 total credits, and have a minimum GPA of 2.50 may declare Psychology as their major.

Students who wish to pursue the B.A.S. degree in psychology may declare the program as a pre-major at any time providing their cumulative GPA is at least 2.00. Students may declare their intent to pursue the degree at the CEHSP’s Advising and Academic Services Office. Progress toward completion of degree requirements is continuously tracked by the UMD Registrar's APAS system.
